Guide to the supporting factsheets

We have published a large number of supporting factsheets and other reports. These are intended to explain our proposals for the transformation of Oxford Street West in greater detail, for those people who want to know more about our plans, or the impacts that they might have.

The following table lists all of the additional documents we have published and explains the contents of each, and provides a link to each.

Title of factsheet or report	Description
Detailed highway designs	A pack of maps showing all of the changes we propose to make throughout the Oxford Street West district, including current and proposed permitted traffic movements. Also included is a table listing all of the changes we propose to make, and the reason for each
Kerbside changes	Pack comprising maps showing the changes to parking, loading and red and yellow lines throughout the area and a supporting factsheet to explain how we have developed our Kerbside Management Plan
Traffic impacts of the transformation of Oxford Street	Supporting factsheet which explains what impacts our proposals might have on traffic flow and journey times in the area.
Mayor's Transport Strategy and the future of Central London	Supporting factsheet which explains how central London will change in future, and how for these changes
Guide to noise and air quality modelling	Supporting factsheet which explains how we have assessed the noise and air quality impacts of our proposals, and what we believe these impacts to be
Air and noise assessment report	Technical report which explains in detail the noise and air quality impacts of our proposals
Bus flow maps	Maps showing the peak-time frequency of buses throughout the district both before and after a 40

Oxford Street transformation

	per cent reduction in bus volumes, and proposed peak-time frequencies of buses in the area in future. Also included is a map to show the number of buses that would operate throughout the area in future, and the routes these buses would take
Accessibility impacts	Supporting factsheet to describe our work in understanding the impacts of our proposals on the accessibility of the district
Freight plan summary	Supporting factsheet which explains our work to develop a Freight plan for the Oxford Street district
Guide to the Management Plan	Supporting factsheet which explains how we are developing a new Management Plan for Oxford Street
Overnight access on Oxford Street West	Supporting factsheet assessing the impacts of allowing overnight access to a transformed Oxford Street West in future
Design principles and concept for the first stage of the transformation of Oxford Street	Supporting factsheet explaining in more detail how we have developed proposals for the first stage of the transformation of Oxford Street
The look, feel and use of space: Activation and Public Art	Supporting factsheet which explains how a transformed Oxford Street might be used
Further opportunities for the second stage of the transformation of Oxford Street	Supporting factsheet which explains in more detail how we propose to develop proposals for the second stage of the transformation of Oxford Street
Public realm opportunities: the second stage of the transformation of Oxford Street	Supporting factsheet which includes some illustrative examples to show how Oxford Street might look and feel at the second stage of its transformation
Changes by mode	A pack of modes to show the changes we propose to make throughout the Oxford Street West district as they relate to bus services, taxis and private hire vehicles and other users
